

# BUCKINGHAM RETRO BACK PAD

A LIGHTWEIGHT, COMFORTABLE, BREATHABLE AND FUNCTIONAL BACK PAD

## Heavy Duty Snap/Loop

Keeps the back pad securely attached to your harness and in place. Also doubles as a lanyard parking attachment.

## Comfortable & Breathable Material

Cotton/nylon blend with high density thermoformed foam.

## Buckingham Retro Back Pad K9RETRO

Buckingham's back pad provides users with a lightweight, comfortable, breathable and most importantly, functional back pad that will result in all day relief on the back and shoulders. You can easily retrofit this back pad onto any Buckingham harness (and most other manufacturer's harnesses as well).

### Features Include:

- Heavy duty snaps keep back pad securely attached to your harness and in place. Also makes retrofitting your current harness a breeze.
- Made of a cotton/nylon blend with high-density thermoformed foam inner.
- Two heavy duty loops meet lanyard parking element requirements in ANSI Z359.
- Meets or exceeds ASTM F887 Electric Arc Performance Requirements and ANSI Z359 when used with an equivalently rated harness.
- Meets OSHA 1926.954(b)(1)(ii).
- Universal in size.
