

ADJUSTABLE BODY BELT SIZING GUIDE

The popular Adjustable Mobility Belt™ just got better! We've increased the size range from 3" to 4" on sizes small through large, and from 4" to 5" on extra-large, providing the user with a greater range of adjustability!

The patent pending adjustable 4 D-Ring body belts offer an adjustable man-rated upper belt strap and an adjustable lower work positioning D-piece that allows the user to customize the size of the body belt at any given moment. These belts feature four sizes – small, medium, large, and X-large and can adjust four to five sizes. Sizes also overlap to provide even more adjustability, in the event you aren't sure on one size versus the other.

Watch the video on how to adjust by opening your camera and scanning this code
