

BUCKOHM™ TRUEFIT™

H-STYLE HARNESS W/DIELECTRIC D-RING

BuckOhm™ TrueFit™ U68M9EQ3

Buckingham's new BuckOhm™ line is a line of products designed to have all dielectric hardware. The new BuckOhm™ TrueFit™ Blackout H-Style Harness with D-ring was designed for working conditions with electrical hazards, making this a great option for substation and other utility work.

Buck's Blackout series of BuckOhm™ harnesses features black nylon webbing with a touch of hi-vis safety green. The 9KV-rated dorsal D-ring option allows for easier connection and disconnection from your lanyard and allows you to store the lanyard in the bucket.

Harness Features:

- 9KV-rated Dielectric hardware.
- 9KV-rated quick-connect chest buckle and leg straps for easier donning.
- 9KV-rated Dorsal D-ring.
- 9KV-rated Sternal D-ring.
- Arc-tested shoulder pads.
- 9KV-rated friction buckles on the vertical shoulder straps for height adjustments.
- Permanently attached BuckStep™ 2.0 trauma straps instead of traditional girth hitching attachment method.
