THE BUCKTOP™

AN SRT CHEST HARNESS THAT WAS DESIGNED TO OFFER OPTIMAL COMFORT, FLEXIBILITY, AND OPTIONS WHILE CLIMBING VIA SINGLE-ROPE TECHNIQUE.

The BuckTop™ U6270

The BuckTop™ is an industry leading SRT Chest Harness with a Suspender setup option. Developed in conjunction with the team at ArborMaster we designed and engineered the BuckTop™ to be the most breathable, feature packed, and comfortable SRT Chest harness available on the market.

Features Include:

- Elastic retention: to allow optimal flexibility and allow movement to be as comfortable as possible.
- Comfort: lightweight/breathable/flexible padding that offers experience not found anywhere else in a SRT chest harness.
- Easy length/size adjustment at front, back and abdominal area.
- Numerous connection points to find your sweet spot.

Easily add suspender straps to be used in conjunction with the SRT harness, or remove via quick connect buckles to use SRT harness alone.

The BuckTop is **not man rated** and should never be used for Fall Arrest, Fall Restraint or Work Positioning
