BUCKINGHAM ADJUSTABLE
TRIFIT™ SHORT BACK BELT

Aluminum Upper D-Rings

Larger Aluminum upper D-rings reduce the overall weight of the belt and make it easier to connect a secondary lanyard for transitioning.

3 Forms of Adjustment

Easily adjust both the upper and lower sets of D-rings AND adjust the man-rated upper belt strap to fit a wider variety of body styles.

Adjustable TriFit™ Short Back Belt
20192C3M

The Adjustable TriFit™ Short Back Belt, a truly one-of-a-kind and fully adjustable belt, now equipped with 3 forms of adjustment. The patent pending Adjustable TriFit™ Short Back Belt allows the user to easily adjust both the upper and lower sets of D-rings AND offers an adjustable man-rated upper belt strap. The adjustable belt strap allows for more adjustment on the lower end of the adjustment range to fit a wider variety of body styles. This is especially useful for smaller waisted users.

Features:
- Larger Aluminum upper D-rings reduce the overall weight of the belt and make it easier to connect a secondary lanyard for transitioning.
- Increased forward adjustment on the upper D-rings without restricting rearward adjustment.
- Upper D-ring and belt strap adjustments offset to eliminate any chance of binding up.
- Y2 adjustment buckles on the D-rings and belt strap eliminate slippage during use.
- The size range remains the same as 20192CM. 4 sizes on the Small through Large, 5 sizes on the Extra Large.

- The Belt Strap adjustment allows user to center the tongue buckle.
- This belt is perfect for those who work in areas of the country where there are large temperature swings – when one part of day or season you could be wearing only FR pants and shirt, then next you could be wearing heavy-duty Carhartt's. Having an adjustable belt allows the user to adjust for comfort and practicality.
- This belt is ideal for those entering the trade who may experience weight fluctuations while they transition from line school to work.
