

BUCK HERITAGE

IN-LINE 4 DEE BODY BELT WITH ULTRA-SOFT LEATHER

Buck Heritage 4 Dee In-Line Body Belt 20122EM-XXBH

Buckingham's In-Line 4 Dee Heritage belt is made with top-of-the-line, ultra-soft, distressed leather that provides users with a broke-in feel and vintage look. This belt features a narrow back pad that is similar to the 2-dee ring belts that linemen have grown accustomed to and is one of Buckingham's lightest belts. The position of the secondary dee ring keeps the secondary lanyard away from the user's feet while climbing. Available in sizes 20 - 30.

RECOMMENDED FOR USE WITH BODY BELT:

Heritage BuckTender 2404-BH

A lightweight, compact retractable designed to keep excess slack of the BuckAdjust™ secondary lanyard or wood pole fall restriction device out of the way while climbing and working. It allows the user to make length adjustments without having to remove the tail from a hand line hook or ditty bag. Available with a single leg or dual leg. The BuckTender will break away when approximately 50 pounds of force is applied.
