BUCKALLOY™

NEW COLORS

THE MOST DURABLE LIGHTWEIGHT CLIMBER IN THE INDUSTRY.

BuckAlloy™ Black Climber
A94089A-BL

BuckAlloy™ Safety Green Climber
A94089A-SG

BuckAlloy™ Matte Alloy Climber
A94089A-MS

After listening to customers who wanted a BuckAlloy™ climber in matte black, safety green, and matte silver, we developed three new versions of the already popular standard polished climber (A94089A). BuckAlloy™ climbers are the most durable aluminum climber in the industry and most cost effective lightweight climbers made in the U.S.A. These climbers provide strong, lightweight comfort for total confidence while climbing.

- Patented GRiP (Gaff Ridge Position) Technology keeps gaff pointed towards the heart of the pole greatly reducing cut outs.
- GRiP allows more comfortable positioning of the foot and arch.
- Because of its numerous available configurations, the EZ Squeeze™ fits many climbing styles and needs.
- The BuckAlloy™ Climbers are rated to 350 lbs. and exceeds ASTM F887 standards.
- Unmatched comfort in an aluminum climber and lightest aluminum climber available.
- Dowel & Screw design allows for easy gaff change out.
- Alloy blend contributes to superior product life cycle.
- Aluminum Alloy used in transport applications including marine, automotive, and aviation due to its high strength to density ratio.
- The 'T' shaped aluminum ribbed construction adds strength to the climber.
