

# BUCKUP-LANYARD

ONE OF THE MOST VERSATILE LANYARDS AVAILABLE

## Pinto Pulley

Create a running rope configuration and mechanical advantages.

## Durable 11MM TriTech Rope

## Prusik Loop w/Thimble

Creates additional anchoring options.

## 4 Triple Action Carabiners

3600lb Gates

## Progress Capture Prusik

## BuckUp-Lanyard (16")

9CCQ1-16

The BuckUp-Lanyard™ is one of the most versatile lanyards available on the market. Lanyard features numerous connection points for easy one-handed adjustability as a work positioning device or can be used as a mobile anchor point for rescue and creating mechanical advantage. This work positioning system allows for easy adaptation to any climbing style or need and is ready for any situation you might find your self in out in the field. Made from Strong/Durable 11MM TriTech Rope. *Additional Lengths Available upon request.*

**Easily create a second climbing line with a simple connection to your bridge anchor point.**

# BUCK M.P.L. LANYARD

## Lightweight Aluminum Hardware

## Thimble Attachment

13 3/8" cord (for additional anchor point).

## Pinto Pulley & Progress Capturer Prusik

## 1/2" 16 Stand Rope

Easily tend slack with one hand with these features.

## Buck Multi-Purpose Lanyard

7C08DQ1-16

The Buck M.P.L is a multipurpose lanyard; like the BuckUp lanyard, this is one of the most versatile lanyards available on the market. After talking with some arborist, we wanted to give users the option between the Buck M.P.L and the BuckUp lanyard. The Buck M.P.L doesn't give you all the options of the BuckUp lanyard but still gives you a truly versatile work positioning lanyard with the use of the versatile Pinto Pulley and numerous connection points.

**Easily create a second climbing line with a simple connection to your bridge anchor point.**
